2022   9.3 CGPI

Secondary School Certificate

Wilson College

2021   88.17%

Secondary School Certificate

Barkat english high school

2019   83.60%

PROJECTS

Voting website using block chain

Led the development of a blockchain-based voting website as a major project, collaborating within a team of three members. The website features both user and admin panels, empowering users to cast their votes, view registered candidates, and access voting results. Additionally, the admin panel enables administrators to perform all user functions and add new candidates to the platform.

Crowd Funding website using block chain

Developed a simple crowdfunding website using blockchain technology as a minor project. The website allows contributors to make fund contributions, view the total raised amount, and check the fundraising deadline.

Quick Source

Developed a user-friendly platform for the computer department's 8th-semester textbooks repository during the 3rd semester. The website enables easy access and download .

CERTIFICATES

One month Training on domain blockchain from Corizo .

HTML CSS and js for web developers course from coursera

7 days Bootcamp for frontend .

INTERNSHIPS

One month Internship as a blockchain developer in Corizo .
